Education

Indian Institute of Technology, Palakkad

8/9/2023 - 7/31/2027

Computer Science and Engineering · B. Tech

- Core courses: Data Structures, Algorithms, Operating Systems, Computer Architecture, Systems Programming, Foundation of Computing Systems

Projects

Snake Game

github.com

7/2025 - 8/2025

Developed a multi-mode Snake game in Python using Pygame, featuring Classic, Timed, Hardcore, Zen, and Survival modes with mode-specific scoring and high score tracking. Implemented responsive full screen scaling, asset management, and smooth animations for an engaging cross-platform experience.

Netflix UI Clone

mynetflixui.vercel.app

7/2025 - 7/2025

This Netflix clone is a responsive front-end replica of the official Netflix India homepage, built using HTML and CSS. Styled to closely match the original, it is deployed and publicly accessible through Vercel for seamless viewing and sharing.

Sangeet

mysangeet.vercel.app

9/2025 - 12/2025

Developed a client-side music player using vanilla JavaScript with support for local folder ingestion, dynamic playlist generation, drag-enabled seek bar, responsive layout, and real-time audio controls. Ensured privacy-first playback by keeping all files local to the user's device.

OELP-P098 (ML in Civil Engineering)

github.com

8/2025-11/2025

Built hybrid constitutive models using ML (MLP, PINN) and classical mechanics (Voce hardening, hyperelasticity) to accurately predict uniaxial and biaxial stress-strain responses of engineering materials for structural applications.

Skills

- **Programming Languages** - C/C++, Python
- **Tools** - PyTorch, NumPy, Pandas, SciPy, Scikit-learn, Matplotlib, Git/Github
- **Web Development** - HTML, CSS, JavaScript

Achievements

Inter IIT Cultural Meet 7.0

2024

Secure the 5th position under the category of Street Photography in the Inter IIT Cultural Meet 7.0, hosted by IIT-PATNA
